

M100

Steering Gears

Sheppard continues to produce steering gear to the highest quality and specification. Competitive pricing, reliable after-sales service and engineering support in the Australian market, makes either the M100 or M110 the natural choice for your next steering application. Sheppard's proven track record over countless kilometres of highway and outback terrain makes it unequalled for quality and reliability.

M110

Steering Gears

All M series power steering gear are torsion bar controlled for improved road feel. They have fully ground rack and pinion to reduce steering wheel free play, this eliminates the need for external adjustment. The Sheppard M series also have manual, fully adjustable relief plungers for quick and trouble free wheel cut adjustment.
