

Fully Serviceable Draglink Assemblies

FULLY
SERVICEABLE
WITH
REPLACEMENT
DRAGLINK ENDS

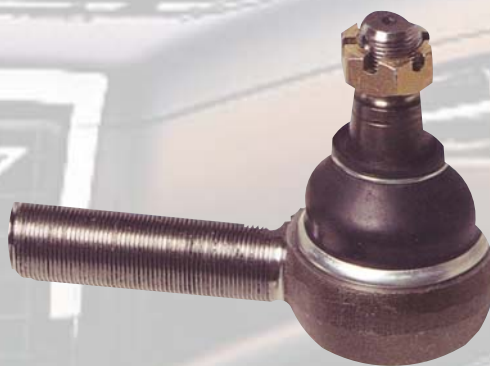

The most case effective method to replace your draglink assembly is to use a fully serviceable draglink with replacement rod ends. Being fully adjustable it also allows steering gear centre adjustment and steering column optimisation.

Our updated draglink assemblies are suitable for most popular US and Australian Trucks. We have the largest range of replaceable ends and draglink assemblies in Australia, all readily available ex stock to suit most heavy duty truck application.

Draglink & Tie Rod Ends

- Full range to suit most Australian, European and North American trucks and buses.
- Micro finished heat treated Alloy Steel.
- The full ball stud is protected by a complete polyurethane stud seal for longer service life.
- Full range of thread sizes to suit all imported trucks from USA and Europe.
- Comes fully greased for extended service life.
